## How to play

1. Print and cut out the cards along the dotted line.
2. They all contain an item number.
3. Pick an item (pair of cards) randomly.
4. Say the word on one of the cards.
5. Ask the client to pick the correct card from the pair.

## How to score

- Each answer can be correct, partially correct or incorrect
- A correct answer = 1 point, partially correct = 1/2 point, incorrect = 0
- At the end of the activity add up all points and calculate the percentage accuracy from this result

Within Voca Quest we use this percentage accuracy to create, suggest, or attain specific goals for the client, auto-generating certificates upon attaining a goal.

These are the boundaries we use for this:

- < 60% = auto-generated goal
- < 80% = suggested goal
- 80% or above 3 times = goal attained
