

# Voca Quest Printables!

Welcome to Voca Quest, the largest library of digital and printable resources for busy speech and language therapists. Go to [www.voca-quest.com](http://www.voca-quest.com) for more info on us, or email us on [support@voca-quest.com](mailto:support@voca-quest.com)

## Whats included:

1. How to play.
2. How to score.
3. Activity items.
4. Score card.

## Colourful Semantics: Sequencing set 01

Created for client by \_\_\_\_\_ on 18th Aug 2022

## How to play

1. Print and cut out the cards along the dotted line.
2. They all contain a group number.
3. Show groups to the client one by one.
4. Ask the client to arrange the cards on the category sheet in the order that they think is correct to make a sentence.

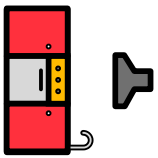

## How to score

- Each answer can be correct, partially correct or incorrect
- A correct answer = 1 point, partially correct = 1/2 point, incorrect = 0
- At the end of the activity add up all points and calculate the percentage accuracy from this result

Within Voca Quest we use this percentage accuracy to create, suggest, or attain specific goals for the client, auto-generating certificates upon attaining a goal.

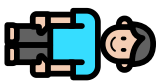

These are the boundaries we use for this:

- < 60% = auto-generated goal
- < 80% = suggested goal
- 80% or above 3 times = goal attained
